

PIAGGIO®

WE ARE TRANSFORMING MOBILITY THANKS TO A BLEND OF TECHNOLOGY AND ART, A COMBINATION OF NEW IDEAS AND UNIQUE DESIGN. WE ARE SHOWING THE WHOLE WORLD THAT FUNCTIONALITY CAN BE FUN AND THAT PRACTICALITY CAN ALSO BE A THING OF BEAUTY. WE WANT TO ENSURE THAT PRESSING THAT START BUTTON SETS OFF REACTIONS THAT WILL TRANSFORM MONDAY MORNINGS INTO AN EXCITING EXPERIENCE, WHETHER IT BE THE SCRAMBLE TO SCHOOL, THE HOURS SPENT IN TRAFFIC OR THE PANIC PHONE CALLS MADE WHEN THERE IS NO MORE BREAD LEFT AT HOME. LET'S ENJOY EVEN THE MOST MUNDANE OF ROUTES AND MAKE OUR JOURNEY THE HIGHLIGHT OF THE DAY.

FREE YOUR EMOTIONS

LIBERTY

50 i-get / 125 i-get ABS
150 i-get ABS

Its fluid elegance will fit you perfectly. Built to support your independent spirit, Piaggio Liberty dresses up its 125 e 150 cc models with chrome-plated finishes and LED running lights. A compact body, high wheels and rearward passenger footpegs all contribute to its iconic design, providing you with an extraordinary sense of stability and protection, yet without compromising when it comes to an agile ride. Piaggio Liberty captures you with its look and convinces you with its equipment, combining brilliant performance with maximum comfort. It boasts a 3-valve i-get engine for contained consumption, ABS at the front wheel only on the 125 and 150 cc to ensure optimum braking in any condition, a roomy underseat compartment with electrically operated opening, and analogue and digital dashboard with LCD display.

ABS

ABS only on the front wheel of the Piaggio Liberty 125 and 150 cc allows you to experience freedom on two wheels with ultimate safety. Add to this the excellent handling and ergonomics, meticulously researched to ensure a unique riding experience.

INIMITABLE STYLE

The front lights, a distinctive technological element of Piaggio's "high wheels", enhance Liberty's design. Sophisticated elements such as split-spoke rims help to define the elegant and unmistakable look of the vehicle, a contemporary style icon.

DIGITAL DASHBOARD

The electronic dashboard adopts a modern and elegantly blue-lit LCD display with digital fuel level indicator and odometer, offering the rider the best available technology.

COMFORT

Comfort is enhanced thanks to the attention paid to the ergonomics of both the rider, who can count on a correct riding triangle thanks to the low saddle, and the passenger, who can enjoy the comfortable retractable footpegs and room ensured by the long saddle. The bike's solid structure, compact dimensions and large diameter wheels convey a sense of stability and protection even for less expert riders, ensuring Piaggio Liberty is a sturdy and reliable travel companion.

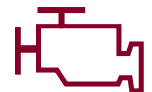

PRACTICALITY

The underseat compartment with electrically operated opening is among the most spacious in its category and can hold a jet helmet with visor. A handy front compartment divided into 2 sections is available for small items. Practicality also means ease of movement, thanks to the reduced weight and a saddle height that is more accessible to everyone: your everyday ally for smart and independent mobility.

TECHNOLOGY AND PERFORMANCE

Piaggio Liberty is powered with the Piaggio i-get engine family, harnessing "Italian green experience technology". All engine capacities are equipped with electronic fuel injection and 3 valves in order to ensure the greatest performance as well as minimum consumption. Reliable and offering reduced maintenance costs, the engines are also extremely quiet and efficient in any riding condition. The 50, 125 and 150 cc engines comply with the Euro 5 emission standard.

NATURALLY COOL

LIBERTY S

50 i-get / 125 i-get ABS
150 i-get ABS

The "S" version expresses all the energy of your personality and dynamism of your daily life. Details that set the style tone: the saddle with exclusive finishes, the diamond-edged wheel rims and the black rear view mirrors. The 50 cc is joined by the 125 and 150 cc engine capacities with ABS only on the front wheel with a Marrone Terra, Bianco Luna, Grigio Materia or Nero Meteora livery so that you can stand out with a touch of style.

SPORTY CHARACTER

Energy on the move. Liberty S, with its lively and sporty spirit, emphasises the technical and design features of Piaggio Liberty. A reference point to accelerate your days with a mix of technology, sophisticated details and enjoyment.

Baci
PERUGINA

DEDICATED HELMET

DEDICATED GRAPHICS

DEDICATED SADDLE

The Piaggio Liberty Baci Perugina results from a meeting of two iconic brands in Italian style. Piaggio has designed a celebratory version of the 125 cc Liberty with Piaggio i-get engine for the 100th anniversary of Baci Perugina. The sleek lines of the Piaggio Liberty Baci Perugina are brought out by the unmistakable deep blue adorned with the stars that symbolise Baci Perugina on the front and sides. The celebrated logo features on the shield and the dark leather seat pays homage to Luisa Dark Chocolate, one of the secrets behind the success of Baci Perugina. The dedicated helmet comes in two different colours: the elegant Baci Perugina blue, as on the scooter, and silver, like the wrapping around each individual chocolate. Both of them have a contrasting star pattern.
